

DynEd's General Placement Test and Kid's Placement Test are computer-adaptive tests that adjust the degree of difficulty and the length of the test, quickly placing students into the appropriate DynEd courses, and ensuring that they study at the optimum level. DynEd's Placement Tests provide quick and reliable initial placement and progress assessment results for school and university students as well as company employees.

General Placement Test test scores are highly aligned with the CEFR (Common European Framework of Reference) and with other standardized tests, including the TOEFL, IELTS, etc.
